"YOU CAN PUT A COMET IN A SUIT CASE"--HERSCHEL; PATH OF HALLEY'S VISITOR AND SIR ROBERT BALL

Robert Ball,our foremost astronomer, received multitudes of letters relat- visited by at least five comets every comes the last and final dictum concerning Halley's comet. It should set
at rest the fears of a grand catast
trophe in the minds of those folks who have been led to believe the comet contains mischief making potentialities. Sir Robert is the royal astronomer of England and the author of several books, including "The Story of the Heavens," in which he

New York, May 13 .- From Sir deals with Halley's comet: "I have this earth, though we have been ing to the comet, and so many have year. If comets could ever have done

HORSES

We have 28 head of fresh Horses direct from the farms, consisting of drivers and heavy draught horses, the flow into sewers of gasolene and from 1,000 to 1,700 pounds. Don't fail to call and see them. You can save money of tours which are being arranged in by buying here.

than \$1,000,000. According to a consulting motor truck specialist who has made a conscientious search, there are in this country, 230 different manufactures of motor delivery wagons or trucks. The desire for a strenuous motor truck efficiency contest is so widespread that W. Irvine Fickling, who has taken charge of the preliminary arrangements, has decided to invite

and conditions that ought to cover Explosions in the muffler are very often caused by missing, the unexploded charge finding its way into the muffler, there to be exploded by the next exhaust flame coming that way. The explosions so caused, especially when there is an accumulation of them will sometimes blow the muffler to pieces. Failure of the spark through weak batteries a defective magneto, spark plug or coil is generally where the prime cause may be

One of the oddest arguments against local option that has yet been advanced emanates from Rochester, a town Michigan, 25 miles from Detroit, and on the way to Flint. Rochester is in Oakland County, which went "dry" two years ago and "wet" this spring. The automobilists there are rejoicing, because they say in the days of the "dry" wave they cut their tires all to pieces running over empty flasks and bottles in the roadway. Now that there will be regular retail emporiums, the use of the bottle on

Do not leave a car standing for hours where the sun will strike it. If you do you may find a flabby tire on your return as an immediate result, with the ultimate ill effect not so readily overcome. It is far better to stop in the shade and walk a hundred feet to your destination. In the case of the car that is run mostly at the bright hours of the day when in the garage. The man with his pri tion by providing heavy shades for the rugs are excellent for this purpose.

Think About This over Sunday

It is proposed to erect a seven-story fireproof apartment hotel at the corner of Fairfield and West Avenues, extending through to John Street.

It is proposed to build this hotel with Bridgeport capital and a considerable amount has already been subscribed.

The cost of operation and the income has been very closely estimated from the best obtainable data, and on an investment of \$245,000 the proposition shows A PROFIT OF APPROXIMATELY 60 PER CENT.—based upon the operation of the hotel under full expenses and the estimated income.

ALLOWING A SHRINKAGE OF ONE-HALF in the estimated income, and still figuring the cost of operation at the figure necessary to run the hotel at capacity, the proposition still shows a PROFIT OF OVER 13 PER CENT.

FACTS

There is no questioning the need of such a hotel in Bridgeport.

There is no question as to the desirability of the location.

There is no question as to the profits of such an enterprise properly managed.

The question is-Will YOU participate?

Securities are being issued in the form of mortgage bonds and capital stock, and sold in blocks comprised of one bond (6%) at par \$1,000, and ten shares of capital stock (per value \$100) at 75, \$750total per block \$1,750.

This Is the Time to Investigate

Plans and elevations can be seen tomorrow at No. 17 P. O. Arcade-step in and look them over, investigate carefully the estimates of expenses and income-look into the proposition thoroughly. This is the time to investigate and invest.
